Allowable Subject Matter

1. Claims 1, 3-4 are allowed.

Claims 1, 4 are independent claims.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 4, the present invention from the application discloses a high reliability system in which "the sheet feeding means adapted for reversing sheet flow direction so as to move a jammed sheet from the sheet feeding means into the jammed sheet receiving means". The closest prior art such as Levine (US Patent No. 4,182,568) and Mamoru (JP Patent No. 09030705 A) fail to teach the removal of the jammed sheets; and Horie et al. (US Patent No. 5,208,640) teaches the jammed sheets are manually removed when the doors are opened (col. 5, lines 65-68). However, the above prior art fails to teach the above underlined distinct feature of the claims. Therefore, the above underlined limitation renders it allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
